## **HISTORY**

### **Intermediate and Senior Divisions (Grades 9-13)**

**Tuesdays, 11:00 - 11:30 a.m.**

The five broadcasts deal with major problems confronting Canadians at the present time. The pupils enrolled in our schools this year will still have to deal with solving these problems in the future when they leave school, and are of age to vote. Therefore, they will have some part in determining Canadian policy.

Some of the problems relate to our history almost from its inception: some loom large since World War II. But none ever remain constant, and it is this fact which presents a continuing challenge for intelligent and devoted individual effort.

Class discussion of these, and other related themes, should quicken the minds of pupils to anticipate what the future may hold, and to recognize their responsibility in shaping it.

## CLASSICS

### Intermediate and Senior Divisions (Grades 10-13)

**Tuesdays, 11:00 - 11:15 a.m.**

This series has been designed to present in dramatized form important phases of Roman history. Each programme will consist of a number of scenes in English, and a repeat in simplified Latin of one of those scenes. We hope that this approach will give pupils the experience of hearing Latin spoken in a dramatic context.

## GEOGRAPHY

### Intermediate Division (Grades 9-10)

**Tuesdays, 11:15 - 11:30 a.m.**

In Eurasia, where three-quarters of the world's peoples live on only one-third of the world's surface, great changes are taking place. The war-ravaged lands of Western Europe have received new vitality from closer economic ties. In the ancient lands of the east, great new developments are being attempted to overcome the twin scourges of these backward nations; overpopulation and lack of opportunity. The Soviet Union has made significant progress in the development of collective farming. From beneath the desert sands of Southwest Asia has come new wealth in the form of oil. In India, industrial and agricultural progress is exemplified by the changes in the Damodar Valley. These and other developments are making the peoples of Eurasia a dynamic force in the world of today.
